He began work on this in the midst of 2016 and after much working and making drastic changes to the original concept, he came up with the idea this concept. **MMM** being Mavrodi's creation has been a Long Lasting name.

To make an impact that no one would ever forget and would stay forever, he wanted to create something that can be said to never have been done before in the **MMM** saga. Thus creating a format of Helping, Investment & Crypto Currency... all of it together at one place. Also the system will bear the Price Prediction of the **MMM COIN**.

# ABOUT THE COIN

**MMM**  
COIN

\* Since **MMM** is a different system all on its own, for a long time Mr. Sergey Mavrodi felt that there is a missing piece in the puzzle... he thought long and good but couldn't think of anything that would fit in the empty space. Then, one day it hit him that since **MMM** was a different system it should also have its own different currency. That is when **Mavrodi** came up with the concept of the **MMM COIN**, and just to make it better, he thought that it should be Bigger than the current Biggest Crypto Currency, Bitcoin.

\***MMM COIN** is the imagination of Sergey Mavrodi that has now turned into reality, but he wants a BIG crowd of anticipators waiting for it when it finally launches, thus he wants 10 million users in the system before he launches it on his 63rd Birthday on August 11th, 2018.
